

Use the figures below to identify the shape of the desired mat. Choose Figure 1 for rectangular areas. For areas with irregular shapes and obstacles, choose from Figures 2 through 4A. If your mat requirement does not conform to any of the presets (Figures 1 through 4A), please provide a dimensioned sketch (see Figure 5 on Page 2). In the table below, please provide all information, including cold lead location, dimensions, cold lead length, area size, and voltage.

Checklist			
Layout Dimensions			
Voltage Provided			
Cold Lead Location Indicated			
Cold Lead Length Indicated			

Quantity	Figure	Part Number	Mat Dimensions (inches)				Area (sq ft)	Volts	Lead Location	Lead Length (Standard 15 ft)	To be Completed by EasyHeat Application Engineering Only		
			(A)	(B)	(C)	(D)					Watts	Amps	Ohms
1	2	WTE0500301C001	50 in	30 in	35 in	n/a	8.8	120	1	15 ft	SAMPLE	SAMPLE	SAMPLE

Note: Please field verify all information. Mark lead locations and supply EasyHeat with a signed submittal drawing.
If a preset configuration (Figure 1 through 4A) is selected, no further drawings are required. Incomplete Custom Order Sheets will not be accepted and will delay order processing.
